

Professor Terje Svingen's inaugural lecture

On Friday 24 November 2023 from 15:00 to 16:00, Terje Svingen will give his inaugural lecture as professor at the DTU National Food Institute.

Terje Svingen will present how hormones help shape the biological sexes and how he became involved with endocrine disruptors in a lecture entitled "Pushing the boundaries of sex: From hormone regulated fetal development to reproductive disorders caused by endocrine disruptors".

DTU National Food Institute invites everybody to this lecture and the subsequent reception in:

DTU Lyngby Campus
Meeting room M1
Building 101A, 1st floor
Anker Engelunds Vej 1
2800 Kgs. Lyngby

Kind regards
Director of Institute
Christine Nellemann
